

SWORD EL

VERTICAL CUTTER

Sword EL is the electric vertical cutting system designed on the real needs of small and medium sign makers, fitters and retail, industry and companies with high volumes of cut. Available in the 250 size, it's ideal for a wide range of standard and customized, graphics and industrial substrates.

- Electric motor at high performance and precision. The adjustable cutting speed with a potentiometer. The constant strength obtained by the motorized system assures a very high cutting precision. Foot pedal startup.
- With its robust body, the Sword EL is equipped with a high-performance and high-precision motor, with a potentiometer that allows the operator to easily adjust the speed. The motorized movement enables a stable pressure on the cutting path, that results in great precision and lower blades consumption.
- A millimetric base for tool positioning.
- Light body frame but strong and reliable.
- Quick tools change: with two units always installed and a third optional two rotary blades: one moving and one fixed for FOREX® e foam
- Tool for dibond and aluminum cut.
- V-cut tool for cardboard angular cut at 60° and 90°Diamond wheel for glass engraving.
- Oversize and strong support base to feed big dimensions panels.

Technical Specifications:

Product Code & Model Name: Q626/250 EL – Sword Multi functional Vertical Cutter 250

Warranty

12 Months Parts Only

FIXED BLADE 01

- Thickness from 1 to 30 mm
- Materials: cardboard, foam mount, gatorfoam, spongy, media, Expanded polyurethane, plastic from 0.5 mm, films, plastic alveolar, reboard.
