

# ELECTRO TRIM

ELECTRIC TRIMMER

The Electro Trim is the most popular cutter among digital printers, service centers and design agencies who are looking for a practical, safe, comprehensive and intuitive system to cut printed papers, SAV, PVC banners and other light substrates.

- Electro Trim is equipped with a rotating blade cutting head in hardened steel, mounted on a sliding tube.
- The metal parts are painted with epoxy powder that guarantee high resistance to cuts and scratches.
- The standard model includes a stand for ground positioning with adjustable feet, the container for the collection of waste and a lamp that illuminates the cutting area.

## Technical Specifications:

Product Code & Model Name: **P909** – Electro Trim 100 + Stand
