## SH-360AFL

### HOT ROLL LAMINATOR

### Optional Extras

#### SHBURST

- Automatically bursts/separates after single sided lamination, saving time & labour

## Technical Specifications

#### Product Code & Model Name:

- SH-360AFL - Hot Roll Laminator

#### Max. Working Temperature:

- Up to 140°C

#### Laminating Speed:

- Variable speed (up to 2.7m per min)

#### Heating Method:

- Hot roll

#### Maximum Laminating Width:

- 330mm

#### Recommended Film:

- BOPP, OPP, Nylon

#### Recommended Paper Thickness:

- 100-350 gsm

#### Power Consumption:

- 1200w

## SH-360AFL Hot Roll Laminator

The SH-360AFL Auto-Feed Single-Sided Laminator features an automatic paper-feeding system that enables true stack-and-go operation. A simple adjustment of the feeding speed allows for precise control of sheet overlap for single-sided BOPP lamination. The blocking roller ensures that only one sheet is fed at a time, preventing multi-feed issues and improving overall reliability. When equipped with the optional automatic burster, the SH-360AFL becomes a fully automated laminating solution. This model is ideal for short-run lamination applications in print shops, copy centres, and similar environments.

#### Key Features:

- Adjustable speed & temperature
- LCD display
- Metal roller
- Separate operating buttons for forward, reverse & stop functions
- Extension arms for larger rolls of media
- Perforated wheel to easily allow manual burst & separation
- Complete with stand & lockable castors
- Auto-feed mechanism
- 1-speed adjuster
- Anti-curl bar to eliminate curling
