Auslam Elite 1700

HEAT ASSIST LAMINATOR

Technical Specifications

Product Code & Model Name:

- Auslam Elite 1700

Working Temp:

- Up to 60°C

Laminating Speed:

- Variable speed (up to 50m per min)

Roller Diameter:

- 180mm

Maximum Laminating Width:

- 1700mm (66")

Maximum Nip Opening:

- Opens up to 35mm

Assembled Dimensions (mm) weight (net):

- 2350 (L) x 850 (W) x 1520 (H) 700 (KG)

Auslam Elite 1700

Heat Assist Laminator

The Auslam Elite 1700 is engineered to meet the demands of the fast-growing industrial signage industry.

This heavy-duty, automatic roll-to-roll laminating machine features a robust metal structure, providing exceptional strength, stability, and long-term durability.

Precision CNC-cut metal components ensure accurate alignment during operation, resulting in consistent, high-quality finishing across applications.

Designed for wide-format laminating mounting, The system incorporates user-focused features that simplify operation and enhance efficiency. Swing out mandrels allow for quick, safe and easy media loading, an infrared light ensures precise alignment between laminate and vinyl. A pneumatic lift system further streamlines efficiently. These features eliminate guesswork and deliver fast, reliable, and professional results every time.

Key Features:

- Pneumatic Roller system
- Film, Prints and rewind Mandrel with swing out airbag shafts
- Infrared light alignment for media
- LCD control panel
- Variable speed control with forward and reverse
- Forward and reverse direction control
- Emergency stop sensor and photocell Installed for safety
- Both auto and foot pedal switch mode
- Heavy duty castors with built in brakes
- Equipped with side cutters
- Nip opens to 35mm for rigid mounting

Perfectly suited for businesses requiring consistent, high-quality lamination with minimal downtime.

5 year parts & structure warranty**
