Auslam Premier 1600 HEAT ASSIST LAMINATOR

Technical Specifications

Product Code & Model Name:

- Auslam Premier 1600

Max. Working Temperature:

- Up to 60°C

Laminating Speed:

- Variable speed (up to 6m per min)

Maximum Laminating Width:

- 1600mm

Maximum Mounting Thickness:

- Opens up to 35mm

Assembled Dimensions (mm):

- 2020 (L) x 630 (W) x 1260 (H)

Auslam Premier 1600 Heat Assist Laminator

The Auslam Premier 1600 is a heavy-duty, heat-assist wide format laminator designed for high-volume roll-to-roll production. Its solid construction and full automation make it ideal for precise, reliable performance. Featuring four interchangeable mandrels with a built-in rewind unit, it offers efficient media handling. With push-button electric opening adjustment (up to 35mm), adjustable heat up to 60°C, and large 120mm rollers, it delivers smooth, high-speed lamination up to 6 meters per minute.

Key Features:

- 1600mm wide format lamination
- Four interchangeable mandrels, including integrated rewind
- Push-button electric opening (up to 35mm)
- Adjustable heat assist (room temperature to 60°C)
- Cold laminator with heat assist functionality
- Large 120mm diameter rollers for superior lamination quality
- Variable speed control up to 6 meters per minute
- Forward and reverse operation
- In-line slitter system for added productivity
- Infrared safety sensor and dual emergency stop buttons
- Safety-covered foot pedal for hands-free operation
- Easy-access pivot feed tray.
- Mounted on lockable castors for mobility and stability
- Standard 10 amp, 3-pin earthed power plug
- Simple plug-and-play setup – no wiring required
- RCM Certified

The Auslam Premier 1600 combines industrial strength with intuitive operation, making it the ideal solution for professionals seeking reliability, speed, and safety in a high-performance laminator.

5 years structural warranty and 3 years parts*
